FIRE AND SECURITY ENGINEER

JOB DESCRIPTION

Fire and Security Engineer

- 40 hours p/w
- South and North West England
- Rate of pay: £37,000 - £40,000 plus overtime and door to door travel
- Company vehicle (with personal use), phone, tablet, company pension & engineer-specific benefits

The role will be field based on a regional basis, so the successful candidate will need to be willing to undertake frequent travel within this region and some working away for which expenses and accommodation will be paid. Our Head Office is in Nottingham, so occasional attendance will be required.

This is an exciting and varied role for a well-established, dynamic and vibrant company, that will be made up of a mixture of servicing, remedial and installation work. Any required training will be provided for the right person.

The successful candidate must have the following

- GCSEs in English and Maths as a minimum
- A positive attitude and commitment to excellence
- Previous experience within the industry – minimum 2 years
- Excellent communication skills
- Knowledge of fire/security systems and manufacturers
- Full driving license
- Willingness to travel throughout the specified region with occasional time away from home

It would be an advantage to have the following:

- Knowledge and experience of emergency lighting & extinguisher maintenance
- FIA Foundation Module in Fire Detection and/or Portable Fire Extinguishers
- IPAF, PASMA, Asbestos Awareness and Working at Height certifications

Key job responsibilities:

- Servicing and maintaining various fire detection systems, emergency lighting and portable fire extinguishers
- Servicing and maintaining various intruder, CCTV and access control systems.
- Working on large and small installation projects across all fire and security disciplines
- Understanding the requirements of the customer, communicating clearly and reacting efficiently.

- Providing customers with training and demonstrations on systems and educating on the causes and implications of false alarms.
- Taking responsibility for health and safety and adhering to relevant British Standards
- Working proactively and efficiently on your own or as part of a team.
- Maintaining Tay Fire and Security's commitment to excellence in customer service and workmanship and translating this into your role.
- Providing on call telephone support and attendance of out of hours call outs as per the company standby schedule.
- Any other reasonable requests from management.
